

PASSION PATHWAY PROGRAMS 2026-2027

Passion Pathway programs offer the opportunity to explore different options and discover new passions. Approx. 70% of the High School students are participating in this optional program that is integrated into their schedule.

Please note that space is limited for each program. Your selection will be confirmed in early July. Please note that your child can only register for ONE pathway.

SPORTS

By participating in one of our programs, students will develop their skills in a sport they are passionate about. These programs, supervised by recognized and qualified coaches, offer young athletes the opportunity to practice a sport intensively while following a challenging academic program.

The training period is from September to June and includes a competitive season for the Volts with a selection process.

The sports Passion Pathways' number of places is limited. Try-out sessions may be required for some sports. The level and age of the student will be prioritized.

SPORTS OVERVIEW

For more information about our sport programs, we invite you to visit the Volts website [available in French only] at <http://www.voltigeursbourget.com/>.

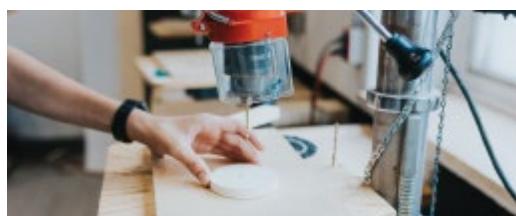

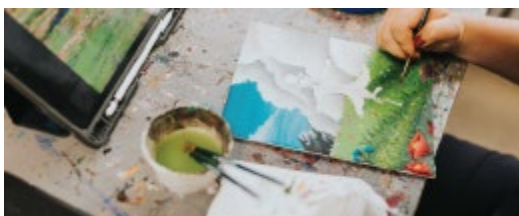

PASSION PATHWAY PROGRAMS 2026-2027

ARTS, LANGUAGES AND SCIENCES

- **Cooking** (2 periods/9-day cycle)
\$910/year
Grade 9 only

Discover the art of cooking with our interactive course specially designed for high school students! Learn how to prepare varied, tasty recipes for your everyday life, while exploring world flavors, culinary culture and the basics of nutrition. A fun, hands-on workshop that stimulates culinary creativity and develops life skills. Sign up and turn your talents into gourmet assets!

➤ ***Drama (3 periods/9-day cycle)***
\$910/year

Grade 9 only

Students will be able to develop certain communication skills by taking part in several theatre-related workshops and carrying out a variety of projects, such as a play.

➤ ***Dungeons & Dragons (2 periods/9-day cycle)***
\$680/year (guide included), \$600/year (without the guide)

Dungeons & Dragons is a role-playing game considered to be a fundamental contemporary game. Participants use their imagination and creativity to overcome obstacles and outwit opponents in a fantasy world. Guided by the game master, students embark on many adventures and their characters progress over time. They learn cooperation, independence, listening skills and problem solving as they tell stories and interact with their peers in this supervised activity. Suitable for both new players and experienced D&D students.

➤ ***Fashion Design and Production (4 periods/9-day cycle)***
\$1,000/year

Grades 9-12

This course will allow students to develop their artistic talents. They will use their creativity and imagination to create unique and original designs with the goal of putting together a fashion show with an "ecological" flavor.

➤ ***Francophone Literature & communications (3 periods/9-day cycle)***
\$380/year

Grade 9 only

[*Program available in French only*]. This program develops a taste for creative writing and the pleasure of reading books in an informal atmosphere of sharing and openness.

The program includes various media creations (student newspaper, podcasts or videos), a reading club, the publication of collections of texts, the sharing of literary

PASSION PATHWAY PROGRAMS 2026-2027

"coups de coeur", short and fun literary workshops, participation in writing contests, reading aloud or recording audio books for our little ones, and the exploration of various literary genres such as comics, graphic novels, detective stories, realistic fiction, etc. During the year, field trips will be organized: book fairs, publishing houses, media as well as meetings with authors and illustrators.

➤ ***Guitar Ensemble***

\$1,130/year (3 periods/9-day cycle – Grade 9)

\$380/year (1 period/9-day cycle – Grade 10-12)

Designed for students with an interest in the guitar, regardless of their level of knowledge, and who wish to develop new musical skills. They will optimize their guitar potential through a distinct learning approach. Students will develop technical skills, play guitar ensemble music and perform in public. They will explore a mixed musical repertoire (classical, Latin, popular, jazz, etc.).

➤ ***Materia (3 periods/9-day cycle)***

\$380/year

Grades 10-12

This program, inspired by the concept of a Fab Lab or creative lab, enables students to develop manual skills and explore some of the techniques used for working with different materials such as wood, resin, concrete, textiles, vinyl and many others.

Through projects, students explore different techniques: bending, molding, modeling, 3D printing, woodworking and glue-laminating, etc.

The aim is to enable students to use the tools at their disposal safely and appropriately for a wide variety of projects.

This pathway enables students to work with their hands, create and develop skills that will serve them throughout their lives. It could also enable them to discover a passion for engineering, industrial design, architecture, visual arts, woodworking, cabinetmaking, etc.

➤ ***Stage Band (6 periods/9-day cycle)***

\$1,490/year

A popular music ensemble, the stage band includes the following instruments:

alto, tenor and baritone saxophones, trumpets, trombones, electric guitar, electric bass, piano, drums, and percussions. Please note that knowledge of an instrument and experience are required to participate into this program.

PASSION PATHWAY PROGRAMS 2026-2027

➤ **Visual Arts (3 periods/9-day cycle)**
\$910/year

This program enables student artists to acquire basic skills to initiate an innovative artistic practice, based on creativity, imagination, and curiosity. The various projects will allow students to experiment and learn new techniques from contemporary art.

➤ **Spanish (4 periods/9-day cycle)**
\$1,020/year
Grade 9 only

For students who wish to learn or develop their knowledge of the Spanish language. Spanish level 1 for beginners or Spanish level 2 for those who have already taken a course.

➤ **Robotics (4 periods/9-day cycle)**
\$1,020/year
Grade 9 only

This course uses a concrete and direct application approach in a learning context based on evolving challenges. It also allows for the learning of multiple platforms and languages while integrating great collaboration.

Three areas are explored:

- Programming, which includes the development of algorithmic thinking.
- Design, which involves seeing oneself as a creator rather than a consumer.
- Techno-mechanics, which allows students to learn to deal with constraints and techniques.

Change or withdrawal of a Passion Pathway program:

From August 1 to December 1, 2026

For a program switch or withdrawal, an administrative fee of \$50 will apply. The refund will be adjusted according to the services used (training, meetings, clothes, etc.).

After December 1, 2026

For a program switch, an administrative fee of \$50 will apply. If you withdraw, there is no refund granted.

Important : Fees are indicative and reflect current projections. *They may be subject to minor variations. If this is the case, you will be informed in a timely manner.*
